HOAGLAND'S
NEW PATENT SHAFT COUPLING!
Wm E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JULY 17.

Washington News.

WASHINGTON, July 16.—The French and British legations respectively forwarded to the parties directly interested, the letter of the Secretary of State relative to telegraph communication between the United States and foreign countries, and particularly in relation to the landing of the French cable. A copy of the same letter will be transmitted to the Governor of Massachusetts, as the terminus of the cable will probably be secured to that State. Also copies of the bill which passed the Senate but failed to be acted on in the House, are enclosed to the parties above mentioned as the basis of the action on the part of the Government, and as showing the opinion of Congress on the subject.

Richard P. De Hart of Indiana, has been appointed Consul to St. Jago de Cuba.

The Executive mansion is nearly deserted. Only one clerk is now employed in the President's office.

From indications at the Treasury Department it is believed that the next public statement will show another large reduction in the indebtedness, though not as large as the exhibit of the present month.

The receipts from Customs and Internal Revenue are considered good for the dull season.

Estimating the receipts and expenses of the Government for the remainder of July on a basis of what they have been to date, the debt statement for August will show a reduction of upwards of $5,000,000.

Gen. Ekin has been deposed from the position of Acting Quartermaster General by the President. Gen. McFerran succeeds.

The French Charge d'Affairs and the agent of the French cable arrived yesterday and had a long interview with the English Minister. To-day they visited the State Department and had a talk with Secretary Fish and endeavored to make arrangements for landing the operating cable. No conclusion was reached, but there are reasons for believing that some arrangements will be affected.

Owing to the importance of the questions involved in the Yerger case, the Attorney General has entered into a written stipulation with Phillips & Carlisle, for the purpose of the initiation of proceedings by which these questions can be brought before the Supreme Court at the October term, for consideration and adjudication; meantime the application to the Chief Justice is suspended without prejudice to the petitioner. The District Attorney of Mississippi has been directed to facilitate any proceedings necessary for the presentation of the case to the Supreme Court. The Attorney General is authorized by the President to say that no sentence of a military commission will be carried into effect sooner than necessary for the safe custody of the prisoner. This agreement meets the approbation of Chief Justice Chase.

S. W. Fowler has brought suit for $29,500 damages in the Supreme Court, against the late Teller Assessor, McGroarty, and Supervisor Young, for alleged illegal seizure of a distillery.

New York News.

NEW YORK, July 17.—The brig *Abbey Larchet* was capsized by a tornado in Long Island Sound yesterday. Two seamen were drowned. The same tornado blew down a house at Port Chester, tore up trees and did other damage. It also blew down two houses in Brooklyn, unroofed four more and did other damage. No lives lost.

Four cases of sun stroke occurred here and three in Norwich yesterday.

The coroner's jury at Port Jervis last night, found that Jas. Griffin was guilty of culpable neglect in not attending to his duty as engineer of the freight train, thereby causing the death of Halleck and others. Griffin has been arrested. The Erie company has settled with the injured on the latter's own terms.

James Fisk is understood to be furnishing the capital for a company to supply telegraph news in opposition to the present system. The details will be made public soon.

A *Herald* special from St. Pierre, July 15, says the laying of the shore end of the American end of the line began to-day. Up to midnight no intelligence had been received.

The Marshal and his deputies and a force of marines has been sent to disperse Conally's filibusters at Gardiner's island.

Nothing farther is known regarding the killed or burned at the West Hope disaster. The wounded are reported as doing well. A coroner's inquest will take place.

A Port au Prince letter of June 22d, says, Bassett, U. S. Minister to Hayti, arrived there on the 14th. He was received in a particularly flattering manner, and is the guest of Hollister, his white predecessor, until President Sainave returns, when he will present his credentials.

PHILADELPHIA, July 16.—The mechanical operations of the chief coiner's department, in this city, will be suspended for three or four weeks.

The Flood in Texas.

GALVESTON, July 16.—Advices from San Antonio report the Guadaloup river higher than ever before known. The entire valley was overflown. Nine tenths of the crops in the country are destroyed. The river rose to the third stories. The cotton factory at New Bramptos was destroyed, material, machinery and everything. The flour mill and woolen factory and bridge on the Carnal river were swept away. No lives were lost. The Colorado was going down. The Brazos was still rising slowly.

A dispatch from Sidney station says a train ran off the track yesterday, near Antelope station, in consequence of the washing away of an embankment. Two men were killed and three injured. Three of the passenger cars and a bag gage car and the engine were badly smashed up. The freight train was also thrown off the track on Tuesday, killing a discharged soldier. The rains have been heavy.

A drove of Texas cattle, while being driven to the ferry to day, for shipment east, dashed into the river. A large number getting into the strong current, were carried down the stream. A swift steamer was sent after them. In the effort to drive them ashore, several were run down and killed. Finally, with the aid of skiffs, they were landed and secured some distance below the city

Crimes and Casualties.

MEMPHIS, July 16.—Haynes, of Crittenden county, Arkansas, opposite this city, was shot and killed yesterday at Marcon by Clarence Collier. Haynes was a notorious leader in the late military outrages, and was very odious to the citizens. The difficulty which caused his death, arose over a game of cards.

A perfect reign of terror prevails to-day in the vicinity of Marcon. Negroes robbed and gutted Rice's store, destroying over $2,000 worth of property. They set the store on fire and are on a general rampage. They caught one unoffending citizen near Mound City this morning and whipped him badly.

CINCINNATI, July 16.—Several cases of sunstroke occurred yesterday. Only two terminated fatly.

Jerome Wilson assailed Chas. Slater yesterday with a hatchet, and cut his arm nearly off, and sunk the hatchet into the back of Slater, who is considered mortally injured. Wilson was arrested. The affair grew out of a dispute on a job of washing. Both are negroes.

Jonathan Davis, an important witness in the express robbery case, for which Stephen Haynes is now in jail, was arrested yesterday and brought to the city to be kept in jail till the trial of Haynes.

ST. LOUIS, July 16.—Advices from Lexington, Missouri, dated July 14th, says a terrible tornado swept over that town. Trees and fences were blown down and many houses were unroofed. The streets were blockaded with wrecks of houses injured and flying timbers. The *Conservative* newspaper office is a complete wreck. The damage to the city and country cannot be estimated at present. No lives lost as far as heard from.

The Revenue officers at Philadelphia, aided by the marines, have been making another raid on illicit distilleries in Richmond district, this time completely draining them out. No particulars.

CLEVELAND, July 16.—A fire last night, in this city, destroyed two hundred and thirty cars, loaded with crude oil, on the Atlantic and Great Western road. Loss about $56,000. The railroad company's loss is heavy.

POUGHKEEPSIE, July 16.—Much excitement exists here, growing out of the Welsh swindle. Sheriff Kenworthy attempted several times to attach property at Pleasant valley, but Irish laborers to the number of 75 or a 100, resisted him. The military have been ordered to report to the Sheriff for duty. It is not believed that danger is imminent. The Irish at Pleasant valley are organized for resistance. Captain Cambreat, of the Second Regiment, will respond with 400 men and 300 rounds of ball cartridges. His company are now assembling at the armory.

A number of convicts at the quarry at Sing Sing prison, refused to work yesterday, and were locked up to-day in prison. The authorities entertain fears of a general rebellion.

MACON, GA., July 16.—In the case of Turner, charged with having counterfeited money, the Government witness to-day testified that he gave $1,800 in counterfeit money, to Maria Harris, to be returned. One hundred dollars, a counterfeit on the First National Bank of New Jersey, was found on this woman in Atlanta, which were introduced also. A letter from Turner to the woman was found at the same time.

A dispatch from a mail agent at Messina, New Mexico, states that the Apache Indians have killed two drivers of mail wagons and captured and tore up two of the last mails between there and Tucson, Arizona. The whole route is infested with Apaches.

The New York Brokers and the Usury Law.

NEW YORK, July 16.—The following brokers were brought before Judge Cardoza, to-day, on charges of usury: David W. Morrison, Russell Lage, George Phipps, Edward R. Jones, Lucien J. Van Buskirk, Reuben W. Hornes and Charles A. Macey. They each gave bail in the sum of $3,000. The court room was densely crowded by the friends of the prisoners and citizens generally. Warrants issued for the arrest of other parties, are not yet executed. The officers have not been able to find the designated persons. It is rumored that some of them have left the State in order to avoid arrest.

The evening papers publish a story that the Wall street operators have determined upon revenge for their prosecution for violating the usury laws, and have held a secret meeting to arrange their plans. They can control $21,000,000 and propose to withdraw it all on a given day from the market and not sell stocks. Short stocks will thereupon fall; then the money will be put on again and the operation repeated until all small speculators are cleaned out. A dash will be made for the heavy operators about the time the Western and Southern States are drawing money to move the crops.

Chinese for the South.

ST. LOUIS, July 15.—General W. R. Miles, of Yasoo City, Miss., arrived in this city *en route* for California. He is commissioned by the Vicksburg Chamber of Commerce to investigate the feasibility of Chinese laborers. If he finds it practicable he will make contracts for several Celestials for planters in the South.

Politics.

BINGHAMPTON, Va., July 16.—Gov. Walker, of Virginia, was serenaded last night by the citizens of this place. He made a speech in response, saying his election was a triumph of reconstruction over carpet-baggers.

The Republicans of Nashville are making an effort to agree upon a Legislative ticket. There is little prospect of success. It is predicted that the next Legislature will be Democratic.

The Stokes men charge that the new Commissioner of Registration is issuing certificates to rebel soldiers and none to colored men.

The Terrible Disaster on the Erie Rail...d.

NEW YORK, July 16.—There are a few additional particulars of the Erie Railroad accident. Gibson, a passenger, says of the burning of the smoking car, that in a seat, wedged in by heaps of broken timber, sat Rev. Mr. Halleck. He was perfectly unhurt, but unable to extricate himself from the wreck. In calm accents and perfectly collected tones, he told us to get an ax and try to cut inside the car. We rushed around and obtained one from a house by the roadside, but it was too dull and we could do nothing with it. We worked and strove to liberate the unfortunate gentleman who sat there, sound in limb, awaiting the approach of the hungry flames. Nearer and nearer they came until his hair began to crisp and his skin to crack; we, in like manner, found the heat unbearable and retired, compelled to leave this poor gentleman, with eight fellow-[illegible], to their terrible fate. We moved off until all was over. Nine passengers were thus burned to death and nine others injured, more or less seriously.

Another passenger says: I heard little children screaming for their mothers; passengers in the ruins called for help, and groaned with pain. Axes were got and one or two were actually chopped out of their imprisonment. Most of the passengers in this car were killed and their bodies consumed or injured. I should think there were sixteen or seventeen in the front end of this car and I think but two were taken out alive. I do not think there was a person killed by the smash, but all the deaths were caused by the fire.

Chicago Dispatch.

CHICAGO, July 16.—Mrs. C. N. Holden, of this city, was thrown from a carriage, at the corner of Lake, Fourth and Water streets, last night, and remained insensible for some time. Her injuries are very severe.

A desperate affray occurred last night, in a cell in the Union street Police Station, between John Swan and Pat O'Connor. Both were incarcerated for drunkenness and disorderly conduct. During the struggle O'Connor threw Swan, his head striking against an iron bolt in the wall, inflicting a severe wound which will probably prove fatal.

There was a disturbance at the Catholic Fair last night. A policeman attempted to quell the row, when some roughs assaulted and cut him in the head. The man who was arrested was stabbed severely.

Foreign Relations.

WASHINGTON, July 16.—Special dispatches from Minister Motley report his reception in the usual manner by the Queen, but fail to confirm the report that he had an unsatisfactory interview with Lord Clarendon on the *Alabama* question. He says the British Government declines to release Col. Halphin or any other of the Fenians in whose behalf our Government made intercession.

NEW YORK, July 16.—A *Tribune's* special says the belief is prevalent among persons in position to know something about the purpose, that Sickles has been intrusted with a delicate duty in the mission to Spain. It will be remembered there was an important debate in the Spanish Cortes some weeks ago on the Cuban question, in which Castello made a speech of a noticeable character. He called attention to the fact that the Cubans had been invited to send representatives to Spain to place the grievances of the people before the Cortes. He said redress had again and again been put off with false promises. He also said the rebellion was only the natural result of many years' error and injustice. The day for despotism was over. Cuba lies like a great blot on the field of American democracy. He closed in bold language, by declaring that Spain could secure permanent peace in the Island and retain her hold on it as a colony but in one way—by giving it such freedom and control over its own affairs as England had given Canada.

It is the belief that Gen. Sickles is instructed to tender the good offices of this country to the furtherance of the cause thus indicated by Senor Castello. In other words, he will at the proper time and in a proper manner, make known to the Spanish authorities that in our opinion certain concessions could be made to Cuba, with advantage to Spain as well as to the people of the island without degradation to the home government. It is thought by those who believe this that our Minister is instructed to bend all his efforts in this direction, and that most Cubans would desist from revolutionary movements if they were allowed such control over their own affairs as the Canadians have over things in Canada. If such a result is brought about by our intervention, the effect would bring feeling relations between our country and also Spain and Cuba.

I. & H. Buckingham are adding a hundred feet to their large elevator, near the Central Depot, making its dimensions 100 by 300 feet. An engine room and boiler room of sixty-feet are added to the building, with three railway tracks, thirty cars can unload at once. The total capacity is seventeen hundred thousand bushels of grain, with facilities for the discharge of two hundred thousand bushels daily. The engine is 300 horse power, the cost of which exceeds that of the largest in the world, and is about half a million dollars.

CINCINNATI, July 17.—An excursion party will leave Chicago for California on Monday, comprising several Congressmen, State officers and other prominent gentlemen of Wisconsin.

The *Tribune's* New York special says that a new penny morning paper, with a circulation of a quarter of a million, is announced to be started in September. It is generally understood to be conducted by Russell Young.

A telegram from Green river, announces the receipt of intelligence from the Powell expedition, to July 4th. The party had passed the rapids, losing one boat. All were well.

Cuban Affairs.

NEW YORK, July 16.—A *Herald* special from Havana, July 13th, says, Gen. Paollo, at the head of 300 Spanish marines, was attacked by the Patriots, near Bona, a small town near Nuevitas. The marines were forced to fall back upon Nuevitas, with a loss of 80, including Gen. Paollo, killed. Holquin is surrounded.

At Puerto Principe a thousand insurgents are concentrating, and only waiting to be armed with Peabody's breech-loading rifles with bayonets to assume offensive operations.

Holquin, one of the insurgents, intends to go to the United States for the purpose of bringing back a force of Americans.

Intelligence from Santiago to the 8th, reports fighting going on thirty miles from that city. The Patriots are strongly reinforced.

General Jordan had joined the Cubans under Gen. Seiguerdo, and now commands large forces.

The Spanish Governor of Baracoa was actively burning property and killing all who fell into his hands.

Our Government and the Cuban.

CHICAGO, July 17.—The *Republican's* special has positive information that Secretary Fish thoroughly endorses the scheme for the solution of the Cuban question by the Cubans purchasing the Island for themselves from Spain, the United States endorsing the bonds for the purchase money. Information equally positive says that President Grant has declared his intention not to allow the iron clads built in this country for Spain to sail. The same special says responsible persons representing the government of San Domingo have recently been to Washington to secure the aid of the Administration in their effort to negotiate annexation. They say this can be consummated without the expenditure of money. They say that the annexation of the Island will be more valuable to the United States than the products of Cuba. It is hinted that the annexation of the Island is only a question of time.

It is rumored that the President is about to issue a neutrality proclamation, but the Chicago *Tribune* thinks it not probable.

C

WEEKLY REVIEW.

PORTLAND, July 10, 1869

Legal Tenders are worth 74@74½.

U. S. bonds are a little up—5-20's of 1862, quoted at 4 and 5-20's of 1867, at 103¾.

Money continues scarce, though there is sufficient for ordinary trade requirements.

Liverpool wheat market, 10s 8d—an advance since our last report of 3d, with a prospect of still higher figures. New York—wheat is steady at $1 65@1 75. Flour unchanged, but firm at last quotations.

San Francisco—quotations for flour same as last week; wheat, firm at $1 65@1 70; oats, quotable, $1 40@1 70. California, and $1 70@1 80 for Oregon. The price of Oregon oats has been from 5 to 15 cents higher, per Central, at San Francisco, all through the season, than California. Grain sent to California during the year ending June 30, 1867, 122,680 centals of oats, against 1,325 centals for the like period ending June 30, 1868.

Portland—Produce market exhibits little change. Oats have advanced to 50c per bushel. Hams and lard one cent each one cent higher, and eggs are 3c lower; beyond these, no changes in quotations. There is a little better feeling in relation to prices for breadstuffs, but at present, the supplies in the city are limited, and no surplus of the interior, not readily obtainable harvest having commenced, there will be no considerable amount of grain toward market for a month or more. Advices from all sources, represent the yield of fall sown wheat as very promising, while all the late sown spring crops are nearly a failure. The hay crop is so light that the probable yield, advises, thus early, that especial attention be given to saving forage.

Merchandise Market—There has been during the week a reasonable activity in all lines. Cotton goods have advanced somewhat. Hardware—figures unchanged, but trade has decidedly improved. Agricultural machinery is in active demand, for the valley counties. Altogether there is rather a cheerful feeling among our merchants

FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price. If you want to insure your life, examine the workings of the Company before you invest.

If you examine you will

INSURE IN THE NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distributions.

BECAUSE we have NO STOCKHOLDERS to draw from 12½ per cent. on imaginary CAPITAL STOCK (personal procurer to pay) amounting from $80,000 to $50,000 annually

Because the NEW ENGLAND is a Mutual and is a Home Company in all our broad and beautiful country; an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts Law.

For example: A person aged 35, insures for $1,000, pays $26 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus:

Say amount Policy is	$1,000 00
Deduct two annual payments he has not paid, $26 50 each, and interest	64 62
The family would receive	935 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL.

Five annual payments keep the Policy in force 10 years and 56 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our beneficent workings, but call and satisfy yourselves. We will be pleased at all time to communicate every information.

THE

New England Mutual

Is the only Company on this Coast that offers the above advantages to Policy-Holders.

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp St. Mary's Cathedral, bet Kearny & Dupont Sts

SAN FRANCISCO

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited most all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia, and with this new experience he is now fully prepared than ever to meet all the demands that humanity may justly claim who desire to be cured by this rational form of medication.

In January last DR SMITH purchased the extensive lot corner of Quincy and Cushman streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as pleasant bathing than is to be found in any Water Cure in the United States

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhœa, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment (in all ordinary cases)

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness The greatest care and neatness is observed in this respect No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsis Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Care. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies' Hygienic Society the first Wednesday in each month. BARLOW J. SMITH, M. D.,
Proprietor and Consulting Physician.
